Experience

2019- 2023
My Marketing, s. r. o.
Web developer

- Developed and maintained CRM systems and various web applications using a tech stack including PHP with Laravel framework, JavaScript with jQuery, Three.js for 3D graphics, and CSS/Sass for styling.

- Collaborated with cross-functional teams to gather requirements, design solutions, and implement features that enhance user experience and streamline business processes.

- Implemented responsive web design techniques, ensuring seamless user experience across various devices and screen sizes.

- Troubleshot and resolved complex technical issues, ensuring the smooth operation of web applications and CRM systems.

- Stayed updated with emerging technologies, trends, and best practices in web development, integrating new tools and techniques into projects to improve efficiency and functionality.

2018 - 2019
Freelancer
Web developer

- Launched a freelance web development venture, specializing in creating responsive and visually appealing websites for clients across diverse industries.

- Demonstrated proficiency in translating client concepts into functional and aesthetically pleasing websites, leading to positive client feedback and referrals.

- Actively engaged in continuous learning, staying updated with the latest web development trends, tools, and best practices to deliver cutting-edge solutions.

- Developed strong project management skills, ensuring timely delivery of projects within scope and budget, leading to high client satisfaction rates.

- Cultivated effective communication and client relationship management skills, fostering long-term partnerships and repeat business opportunities.
